Isaac Newton Trust / Wellcome Trust ISSF / University of Cambridge Joint Research Grants Scheme

This application has three parts:

- Research proposal
- Confirmation of eligibility
- Statement of support from Head of Department

Instructions on what is required for each are below.

Research proposal

- Please outline your proposed research (max 750 words). Indicate the key scientific objectives
 and challenges of the research and what this grant would enable you to do that would not
 otherwise be possible.
- Please also provide a statement (**max 500 words**) on the impact this grant would have on your research activity and career.
- Your application should also include your CV (including publications).

Eligibility

Statement of support from Head of Department

In your statement of support please:

- explain why this applicant merits consideration for this grant, and the transformative effect it would have on their research career;
- give your opinion as to the independence of the candidate, and the value of the proposed research;
- comment on the originality and appropriateness of the proposed work and its relationship to broader Departmental strategy.

Please note that the Department has to provide one third of the project costs and the letter of support should confirm this commitment.
